Our Unique Education

All of our programs are a pass or fail system. Our programs are designed after the practicum model, where much of the learning is to be done through application of the intellectual acquisition. Our educational ratio is around 80% practicum learning and 20% intellectual learning. Each successfully completed course is designed to build on one another to take the student of intercession into greater maturity in wielding the word of God, clarity in tackling various prayer requests, a regular and disciplined prayer life with structure, and a sharpened attunement to what the Spirit is saying. Students are required to purchase the books needed for each course level, have access to word processing and numbers processing software, a computer and an Internet connection for access to the online course material as well as for emailing assigned work. There are online video modules where we cover the practical mechanics and intellectual understandings of intercession.

"Prayer is a trade to be learned. We must be apprentices and serve our time at it. Painstaking care, much thought, practice, and labor are required to be a skilled tradesman in praying."
EM Bounds (1835-1913)
